Faraon or Pharaoh was the term used for the Arabic ruler.

Pyramids were built 1500 years before the Israelites were alleged to have been there.

It is justified to refer to Arabia as Mizraim as long as you put in a footnote or if someone had asked which the correct name is. I would respond with "Misr".

Judaism is not a race- 14%

Ishmaelite is an Arabic name that comes from Ismail

Herodotus who had traveled around 450 BC to Egypt did not write of any Jews nor did he write of any Pharaohs. He came up with the name Palestine for the land that was once there.

Kardesh Banna is in Yemen. Kades Mountain where the battle was fought is in Kades Taai'z Yemen. First Jerusalem kept the Israelites safe because it would wear the enemy out to walk all the way up the mountain. David was in Arabia; he came before Moses. There were over 49,000 Jews in the Beit Bos fortress in Yemen; that means it was handed down from the time of the event, nice! 45%

Palestine and Philistine is not the same. Philistines are located near Yemen.

The Samaritans are the original Arabs but fled Babylon for New Jerusalem.

The Egyptians would have documented the absolute damage done if God had struck them.

Elohim, El and Allah are the same. Think El-------Ellah----Allah. Not to mention, Hebrew is different from Arabic, you could get the vowels wrong but El and Allah is too similar not to point out. One another name used is Ellah, that is one letter away! It's like they were trying to say Allah, I don't study Hebrew. It would better my understanding if in Arabic; it doesn't start with El but Al instead. Muhammad's father name was "slave of Allah", that's what the Prophets name should be. The Aramaic word for God is Alaha, Assyrian Christians used name of God as Allah. Hebrew is the closest language to Arabic.

Asir is South Arabia- Asiriaelites are Israelites

Muhammad referred to Egypt as Copt. That's where the term Coptic Christian comes from.

Pishon River is Wahdi Bisha. Ashraf says the Gardens of Eden is hiding somewhere in Yemen

Cush is Ethiopia. Sheba's and Solomon's son ruled over Ethiopia

Peraa meant palace, it had nothing to do with King

They didn't lie about crossing the Red Sea; everyone was required to own an Old Testament.

The land of Palestine was poor during 10th century BC, David would not be there. There was no population during that time. Later on, it had fixed itself to become fertile land.

Merneptahs Stele comes from Arabia; it is referencing Banu Canaan the Canaanites. 80%

Abraham went around Arabia this is far more realistic than whatever fake narrative is being provided by alleged historians. He was also forming relations with towns to do trade, other towns must have documented him, they must have known him and said, "hello Abraham."

Abraham did not have a camel

Tayamon- giving the names to new settlements to old ones. Jericho, Megiddo, Hazor, Hebron, Gaza, Shechem, Samaria, Bethel, and Jerusalem 86%

Israelites were mentioned only once by the Egyptians who had kept records of trade.

Children of Israel; that is the earth or the religion of People of the Book.

Israel was in Arabia (we would never call the land there Israel, it is called Arabia), thanks to the Quran we know that was a lie in the Old Testament. Israel and Judah was a country within Arabia. Misr is the name for Arabia; all the Jewish tribes are in North Yemen but have now been moved to Palestine.

Galatians 4:25- Paul wrote down that Sinai is a mountain in Arabia; he must have known to go off to Arabia, that's why he went to Arabia. Mount Sinai is in Arabia, there is no such thing as the "Sinai Desert". This alleged Sinai Desert that is South of Palestine is not the Sinai; it was always part of Egypt. Without Paul, we Nazarenes would not know that they had forged part of the New Testament because most don't trust anything in the Quran. Now we have two separate sources to prove that Arabia was where the Bible took place. This is also referenced in Galatians 1:17 where Paul says he went off to Arabia, Arabs are also referenced in Acts 2:11.

Temple Mount. Mount is short for mountain; the Temple is on the top of the mountain.

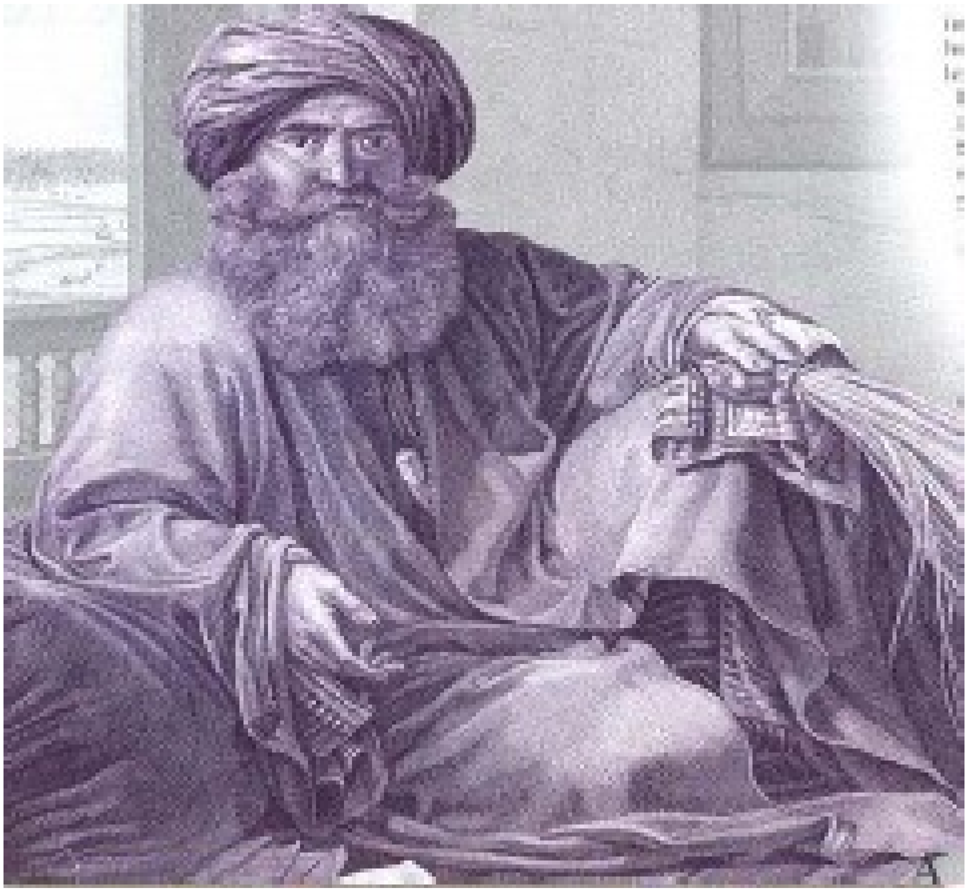
Psalms 84:3-6 pilgrimage as they pass through the Valley of Baka (Mecca). To get to Old Jerusalem for pilgrimage, you had to get through Mecca.

Isaiah 66:20-holy Mountain in First Jerusalem.

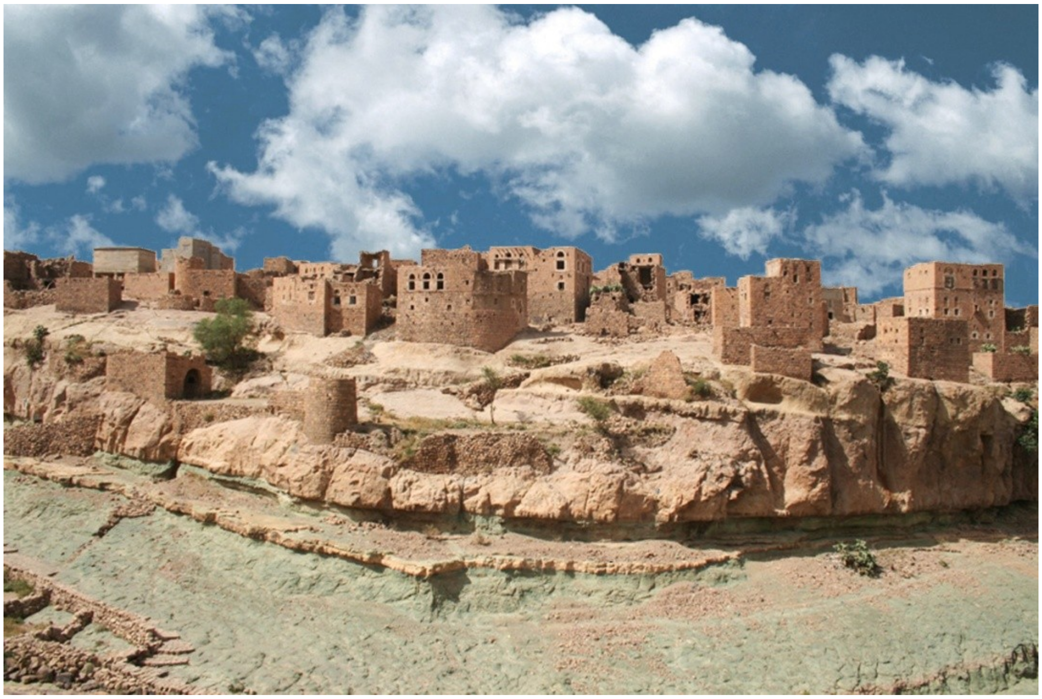
2 Chronicles 3:1 Then Solomon began to build the Temple of the Lord in Jerusalem on Mount Moriah.

2 Chronicles 5:2 to bring up the ark of the covenant of the Lord out of the city of David, which is Zion (the hill of First Jerusalem where the city of David was built).

Ezekiel 43:12 all the surrounding area on top of the mountain will be most holy.



What Pharaoh most likely looked like during the time of the Exodus with Prophet Moses and Prophet Aaron.



Beit Bos ruins South of Sana'a Yemen believed to be over 1700 years old. This is First Jerusalem.

Both of these beautiful photos of Jabal Haraz which is located between Sana'a and al-Hudayda Yemen. This is where the original Jerusalem was, I can confirm it looking at a map. These are also photos of First Jerusalem.

This is Second Jerusalem in Palestine, notice how there is no mountain; this is a hill. Because we are not allowed to excavate in Second Jerusalem for the First Temple, they won't let us disprove of Solomon's Temple being there.
